Ease of calculating calories of available food options					Х
Ease of converting between metric andimperial measures					Х
Navigating throughout the application					Х
Redability of application's contents				Х	
Resolution (size) of application				X	
Error message clarity					Х
Overall satisfaction					Х

General Usability Questions

First Impressions

- What are your first thoughts when you see the app's main screen?
- Is the purpose of the app clear from the start?
- How easy or difficult is it to understand what to do next?

The purpose of the application is clear and easy to understand

Navigation and Layout

- How easy is it to navigate through the app?
- Can you find the main features (user records, imperial/metric conversion, calorie calculator) easily?
- Did you encounter any difficulties in finding specific functions?

The application works correctly and quickly, all options are easily accessible and visible, and using it does not cause any problems

Visual Design

- How do you feel about the overall design and aesthetics of the app?
- Are the fonts, colors, and layout pleasing and easy to read?
- Is there anything visually distracting or confusing?

The application works properly, visually it suits me very well. fonts and colors match each other, making it easier to understand how the application works

Error Handling and Feedback

- Have you encountered any error messages? Were they helpful?
- How does the app respond when you make a mistake or input incorrect data?
- Is the feedback (success or error messages) timely and clear?

Error messages are simple and helpful, after entering incorrect data, the application informs us about the error

Specific Feature Questions

Registration and Login

- Was the registration process straightforward and intuitive?
- Did the form validation work as expected?
- How was your experience with logging in? Any issues or confusion?

I ha	registration	nrocase	WOO	eimnla	logging	in	did	not.	COLICA	anv	nrohl	l۵mc

User Experience Questions

Overall Satisfaction

- How satisfied are you with your overall experience using the app?
- What did you like most about the app?
- What did you dislike or find frustrating?

The best element of the application is the interface and the worst is the note system

Ease of Use

- How would you rate the ease of use of this app on a scale of 1 to 10?
- Were there any moments where you felt stuck or unsure of what to do next?
- Is there any feature or aspect of the app that seemed unnecessary or overcomplicated?

The application is easy to use, I would rate it 8

Suggestions for Improvement

- What features or functionalities do you think are missing from the app?
- Do you have any suggestions for improving the user interface or user experience?
- If you could change one thing about the app, what would it be?

In my opinion, the application is well made considering the number of available functions

Performance and Reliability

- Did you notice any lag or performance issues while using the app?
- How reliable was the app during your testing? Did it crash or behave unexpectedly?
- Were there any loading times that seemed too long or disrupted your experience?

The application worked smoothly and loaded quickly

Task-Based Questions

Completing Specific Tasks

- Can you register a new account and log in without assistance?
- Can you create, edit, and delete a note? How easy was it to do this?
- Can you perform a metric to imperial conversion for a given unit?
- Can you calculate the total calories for a meal using the calorie calculator? How intuitive was this process?

I can perform each of the above activities independently and easily, every process was very intuitive

Scenarios

- Imagine you need to quickly jot down a note while on the go. How does the app perform in this scenario?
- If you're using the app to convert units while cooking, is it fast and efficient?
- For a fitness enthusiast tracking their food intake, how useful and user-friendly is the calorie calculator?

Operations in this program are fast and efficient, allowing you to write notes on the go

Demographic and Contextual Questions

User Background

- What is your familiarity with using mobile apps for note-taking or unit conversion?
- How often do you use similar apps, and which ones do you use most frequently?
- What kind of device are you using to test this app (e.g., smartphone, tablet)?
- my knowledge of using similar mobile applications is good.
- -I rarely use such applications
- -I used a laptop for testing

Context of Use

- In what environment or situation do you envision using this app most often?
- How well does the app fit into your daily routine or specific needs?
- Are there any specific contexts where you think the app would be particularly helpful or not useful?

The application is suitable for everyday use or when someone wants to take notes, but I don't use such applications on a daily basis

Follow-Up Questions (Optional)

Final Thoughts

- Would you recommend this app to others? Why or why not?
- How likely are you to continue using this app after this testing session?
- Do you have any additional comments or thoughts about your experience?
